Library Orientation programme Orientation is a program that is normally performed for fresh intake in an institution. The usefulness of a library in any academic institution is to support the academic and research needs of its stakeholders. To provide better services to its users, it is the responsibility of the institute's library to make information sources, services, and resources readily available for use and easily accessible to its users. It becomes very difficult sometimes to effectively access, identify or recover information at the library without instructions or guidance which would have credibly aided one learning, teaching or research. Library orientation helps these groups of library users to adapt to the system or know how the library operates its activities within the institution and make good use of its services.

A library Orientation Programme was conducted by the Librarian of SSK college of Pharmacy in college library on 16/12/2024 at 10:00 a.m. to 11:00 a.m. For the 1<sup>st</sup> year (FY D PHARM) Student.
